Sion Hill, Lansdown, Bath, BA1 5SF

CONTACT 01225 875533

Boundaries have shaped our past and control our present. They affect the way we navigate through our towns and cities and traverse our countryside, simultaneously dividing and containing us. **This exhibition** shows a selection of work by three photographers who are exploring the different ways that natural, constructed and perceived boundaries are established and marked. Their work also comments upon the impact boundaries have upon our daily lives, issues of land ownership, exclusion and control.
